Surescripts Board Members

Laird K. Daniels | CVS Health
Christie R. Boutte, PharmD, RPh | National Association of Chain Drug Stores
Bill Osborn | Osborn Drugs
Doug Hoey | National Community Pharmacists Association
Steve Miller, MD, Chief Clinical Officer | Cigna Corporation

**2550 South Clark St,
Arlington, VA 22202**

Dear Surescripts Boardmember,

We, the undersigned, ask you to rescind the recent [GoodRx deal with Surescripts](#).¹ The deal was touted as a move towards transparency; when in fact, coupon programs are bought and paid for by the same PBM-based, opaque pricing schema the deal claims to upend.

[GoodRx is not price transparency](#).² Coupon programs allow PBMs to enter the cash-paying market. Instead of correcting pricing and its outdated AWP-based Usual and Customaries, coupons help PBMs perpetuate their existence. If coupons did not exist, we would motivate further innovation around pricing and pricing reform. In a coupon-free world, market forces would drive the pharmacy charging \$268 for rosuvastatin (which costs \$0.03/pill) down to a reasonable amount or suffer extinction. Regarding the claim of transparency, it's almost antithetical as many providers and patients cannot even explain how GoodRx operates (let alone [make \\$500+ million "saving people money"](#)³ and having [executives with higher earnings than Apple's CEO](#)).⁴ Lastly, regarding transparency, GoodRx only displays prices for their partners (i.e. highest bidders). This likely leaves many opportunities for patient savings omitted, [especially those at independent pharmacies](#).⁵ This violates the "anti-steerage" provisions in Surescripts charter - since Independent pharmacies are not listed in GoodRx's platform unless they undergo substantial credentialing via LegitScript or NABP VIPP. The effect of this deal will be to steer volume AWAY from independent pharmacies and toward large chains and mail pharmacies.

GoodRx is using the Surescripts's [rails](#)⁶ to further entrench itself as the market leader in pharmacy coupons. The [utility-nature](#)⁷ of Surescripts should not be leveraged to assist in monopolizing an entire market - GoodRx has already used its market power to raise fees, institute paywall access to certain prices (GoodRx Gold), and increase prices on its platform. GoodRx is using market dominance to further entrench themselves (all hallmark monopoly practices).

We, the undersigned, ask you to rescind the GoodRx agreement with Surescripts. We encourage you to instead open pathways for all pharmacies, big or small, to accelerate the advent of price transparency.

Thank you for your time and consideration,
